## DEPARTMENT OF CHEMISTRY

### NATIONAL INSTITUTE OF TECHNOLOGY CALICUT AND MILMA KUNNAMANGALAM VISIT

On 1-2-24, third year BSc chemistry students along with faculties of chemistry department visited NIT Calicut. The primary objective of the visit was to expose students to real-world scientific endeavors, allowing them to witness the practical applications of theoretical knowledge gained in their academic pursuits. Additionally, the visit aimed to inspire and motivate students to consider careers in research and development. Upon arrival, the students were welcomed by institute staff who provided an overview of the institute's history, mission, and major research areas. Students were taken on guided tours of different laboratories and instrumentation facilities, where they gained first-hand knowledge on scientific research. The NIT visit proved to be an enriching experience for the students.

In the afternoon, they visited MILMA (MRCMPU Ltd.) Kunnamangalam. The aim of the unit visit was to provide students with insights into the dairy industry, its operations, and the production processes involving in delivering high quality milk products. Students had the opportunity to visit to the milk processing unit, where students observed the various stages of milk processing, including posteurization, homogenization, and packaging.
