in Chemistry**

GOVERNMENT COLLEGE MOKERI

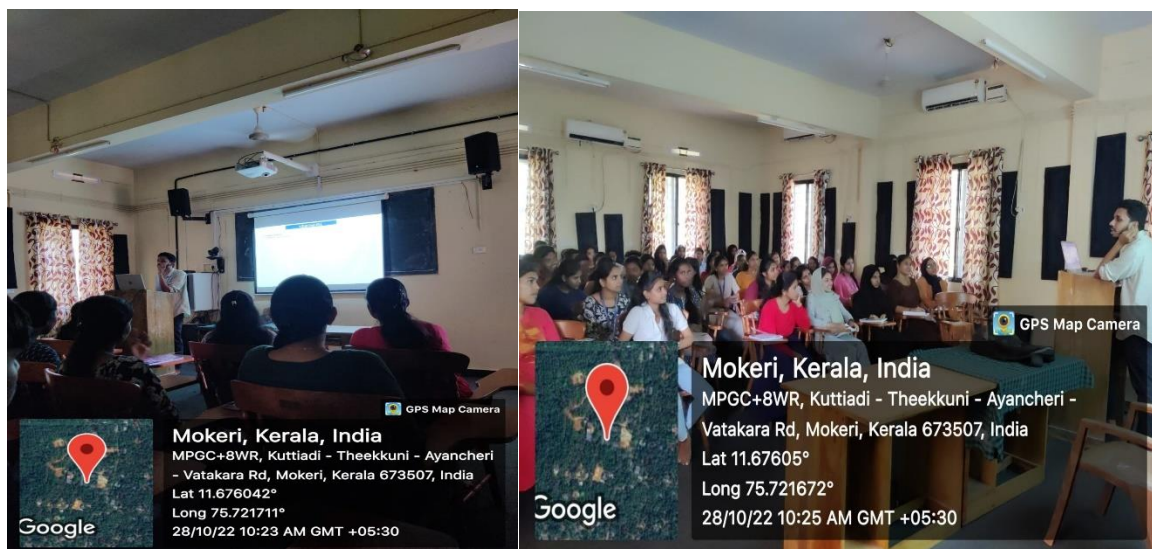

DEPARTMENT OF CHEMISTRY

JAM ORIENTATION CLASS

In association with the anniversary celebration Atomos presented a JAM ORIENTATION CLASS was handled by Ramshad K, Ph.D. Scholar, Department of Chemistry, NITCalicut on 28 October 2022 at Edusat room. The inauguration function started at 10 am with a prayer song, followed by welcome speech by Anagha K, coordinator of the class. The inauguration of the orientation class was done by Sajeesh Kumar V K (HOD of chemistry, Govt. college mokeri).

The Jam orientation class was handled by Ramshad K (Ph.D. Scholar, Department of Chemistry, NIT Calicut). He introduced top institutes in India for higher studies. There are 23 IITs, 7 IISERs, 31 NITs and many Central Universities in India for higher studies. He explained how to get admission in these universities and preparation strategy for the entrance exams. He discussed the entrance exam questions with students. He discussed the major career opportunities starting from industries to academic. He also gave information about BARC, PSUs, CGPDTM, FSSAI, FCI, GSI, SDMCIL, PSC etc. He inspired the students by explaining the bright future they get while exploring their career options. He cited that career options in chemistry are not limited to teaching or lab assistants. He criticized the perspective of students who stuck in the nearby colleges even without knowing about top institutes and opportunities. He promised that he would give the support to the students who have various interest on research field.

The objective of the seminar was achieved. The session discussion was successful. Really server us with so much information which really helps us in career.
