SEMINAR ON “THE SPRING SEASON OF CHEMISTRY”

In association with the anniversary celebration Atomos presented a seminar on “THE SPRING SEASON OF CHEMISTRY” handled by Dr.Sujith Athyanathil, Professor, Department of Chemistry, NIT Calicut on 3rd February 2023 at the seminar hall. The inauguration function started at 10 a.m. with a prayer song, followed by a welcome speech by Anagha K, coordinator of the seminar. The inauguration of the seminar was done by Sajeesh Kumar V K (HOD of Chemistry, Govt. College Mokeri).

Dr. Sujith Athyanathil (Professor, Department of Chemistry, NIT Calicut) presented the keynote address on the SPRING SEASON OF CHEMISTRY which included the growth of chemistry. He attracted the students by explaining the main inventions through stories like the story of the philosopher’s stone, Kekule’s dream about benzene, the story of the periodic table, the vulcanization of rubber, etc. He discussed the importance of chemistry in everyday life with examples. He also gave clear information on the chemical changes that occurred in hormones during each emotion. That is change in functional groups or change in orientation or a chemical reaction of hormones results variety of emotions. After his lecture, the students clarified their doubts about the chemistry. He also invited the students to visit NIT Calicut. His seminar inspired the students to explore the field of chemistry.

The objective of the seminar was achieved. The session discussion was successful. Really served us with so much information which really helps us in career.

Talk by Dr Sujith Athyanathil
