- .pic corner 📷

📍 Tagore Square | ⌚ 1:30-2:30 | 📅 Feb 28

We're Excited to see uhh 🥳

GOVERNMENT COLLEGE MOKERI

DEPARTMENT OF CHEMISTRY

SCIENCE DAY CELEBRATION

In association with science day celebration, the programme “GALENA” was conducted by department of chemistry. The programme was inaugurated by Dr. Ashraf, principal of Govt. College Mokeri. The programme started with a flash mob conducted by Anagha, Priyendhu, Parvana and Sivapriya. The experimental session started with elephant toothpaste experiment followed by volcano, magic drinks, bottle ghost, fake blood, lollipop, aluminium foil experiment and dry ice experiments.

The food fest was also great success. Variety of food items like popcorn, icecreams, mojito, panipoori and snack items. The most interesting part of the programme was the gamezone, students and teachers are really enjoyed it. The smoke from the dry ice also created a celebration mood on everyone. There was a live quiz and the winners got small gifts. There was a click chemistry corner to take pictures in a lab ambience.
