

GOVERNMENT COLLEGE MOKERI

Mokeri (P.O), Kakkattil(via)Kozhikode, Kerala, Pin-673507
(NAAC Accredited with 'B+' Grade)

STUDENT CENTRIC METHODS & EXPERIENTIAL PARTICIPATION

Implementing student-centered approaches within the framework of participative learning and problem-solving methodology has effectively augmented student engagement in the institution.

- Role plays, group projects, debates, quizzes at seminars, and case studies

Particular emphasis is placed on student-centric teaching approaches, which are evident in invited lectures, field trips and industrial visits. In order to expose students to the industrial work culture, departments organise and plan industrial visits. In particular, the student-centric approach comprises

- Project Work
- Field Work
- Invited Lecture : Distinguished industry professionals and academicians from around the globe deliver guest lectures to enhance the curriculum and facilitate hands-on learning.
- Participatory learning in the classroom
- Collaboration: Each department coordinates student activities with the aim of fostering a sense of teamwork.
- The NSS's camps and activities of CoK/clubs and committees of the institution
- Debates: Numerous subjects incorporate debates, which force students to present differing viewpoints and thought processes
- Group work--faculty-led seminars and practicals are incorporated into all individual and group projects.
- Case studies -- Case study methodology is incorporated into the teaching and learning process in order to equip students with practical knowledge and logical reasoning skills that facilitate the development of problem-solving abilities.
- Analysis and Reasoning: Via internal evaluation and examines the application of analysis and reasoning are analysed.
- Wi-Fi in the campus encourages students to engage in independent study and discussion.
- Discussion: The institution incorporates discussion methods into the curriculum, as they encourage students to think critically and actively contribute their perspectives and recommendations in order to assess their existing knowledge.
- Quizzes
- Research Activities: Under the direction of senior faculty and the research committee of the college, research activities are carried out in each department, educating students from various semesters about emerging fields and aiding in the development of their research aptitude. Classes in inter/multi-disciplinary approaches are given along with sessions on methodology.
